

EXTRAVIS MonetX™

Network Management System

Smarter Network Monitoring. Complete Visibility. Total Control.

Extravis MonetX NMS delivers end-to-end network performance monitoring and configuration management in a single, intelligent platform.

Reliable Networks.
Proactive Monitoring.
Better Performance.

End-to-End Visibility

Monitor your entire network infrastructure from a single pane of glass.

Network Performance Monitoring (NPM)

Real-time performance metrics, availability, bandwidth, latency and health monitoring.

Smart Alerts & Notifications

Instant alerts via Email / SMS for faults, outages, threshold breaches and more.

Network Configuration Management

Backup, track, compare and manage configurations across your devices.

Monitor Everything that Matters

Routers

Monitor availability, interface status, traffic, CPU, memory and more.

Switches

Port status, bandwidth utilization, errors, PoE, VLAN and more.

Firewalls

Security monitoring, policy tracking, threat alerts and performance.

Wireless APs

Monitor signal strength, clients, usage, uptime and performance.

CCTV Systems

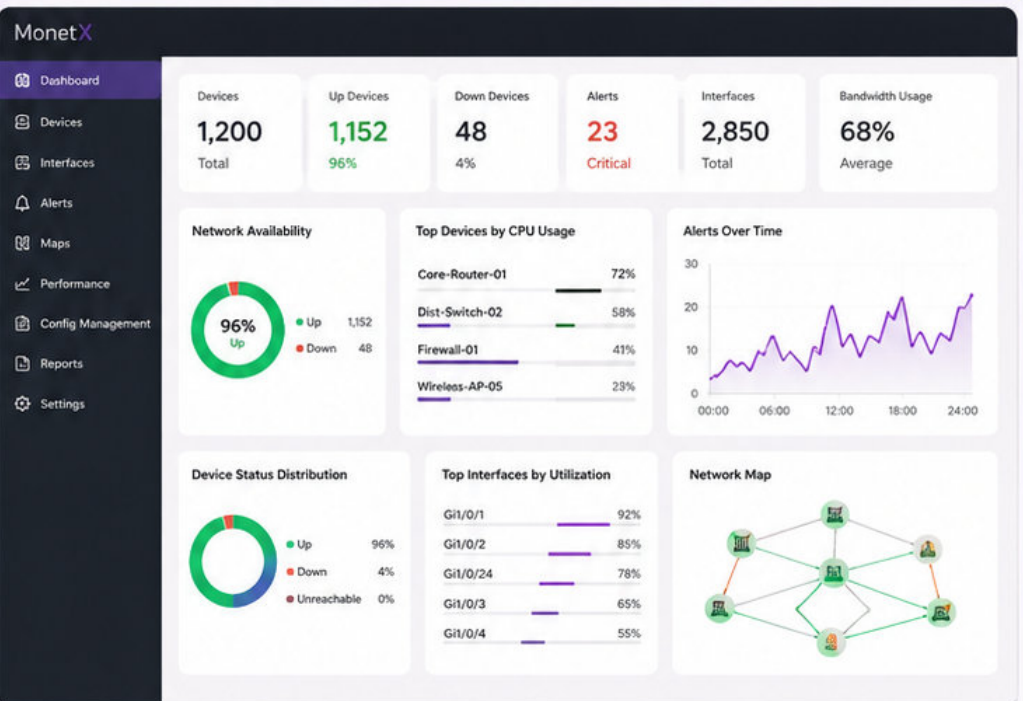

Device health, recording status, storage, connectivity and alerts.

Vendor-Agnostic Solution

Works with multi-vendor, multi-technology environments.

Single Dashboard. Complete Control.

Key Benefits

Complete Visibility

End-to-end monitoring across your entire network infrastructure.

Proactive Monitoring

Detect issues early and prevent downtime with real-time insights.

Faster Response

Smart alerts via Email / SMS ensure the right teams act instantly.

Operational Efficiency

Automate monitoring, reporting and config management tasks.

Business Continuity

Ensure high availability, performance and security of critical systems.

Take Control of Your Network with
Extravis **MonetX** NMS

All-in-One Network Monitoring
and Management Platform
for Modern Enterprises

- ✓ Simple to Deploy
- ✓ Easy to Use
- ✓ Scalable for Any Size
- ✓ Built for Performance
