CHOOSE THE RIGHT CEL-FI SOLUTION

BUILDINGS
PEOPLE
POSSIBILITIES

From homes to enterprise campuses, CSC selects the right platform for every coverage challenge.

CEL-FI CONNECT C41

Self-Install Smart Signal Repeater

Best for
Homes and Small Businesses

Plug-and-play operation –
set up and boost signal in minutes

Supports 2G, 3G, 4G and 5G NR

CEL-FI GO G41

In-Building Cellular Coverage Solution

Best for
Small to Medium Indoor Sites

Industry-leading signal gain
up to 100 dB

Supports 2G, 3G, 4G, 5G NR
with automatic gain control

CEL-FI GO G51

Self-Configuring 5G NR Cellular Solution

Best for
Mid-Band 5G Indoor Coverage

Mid-band (2.5 & 3.5 GHz) 5G NR
with up to 100 MHz bandwidth

Compact, easy to use,
self-configuring operation

CEL-FI QUATRA 4000e

In-Building Cellular Coverage Solution

Best for
Enterprise Buildings & Campuses

Scalable multi-carrier Active DAS Hybrid
with signal gain up to 100 dB

Uses category cabling (RF & Power
over Ethernet) with remote monitoring

CEL-FI QUATRA 4000e Fiber Hub

Coverage Expansion Solution

Best for
Larger Sites & Multi-Building Campuses

Extends QUATRA coverage to
adjacent buildings (up to 2.0 km)

Supports additional Coverage Units
(CUs) – up to 6 per hub (12 total)

LPDA-R DONOR ANTENNA

High-Gain Outdoor Antenna

Best for
Outdoor Signal Reception

12–14 dBi high gain with
reduced out-of-band noise

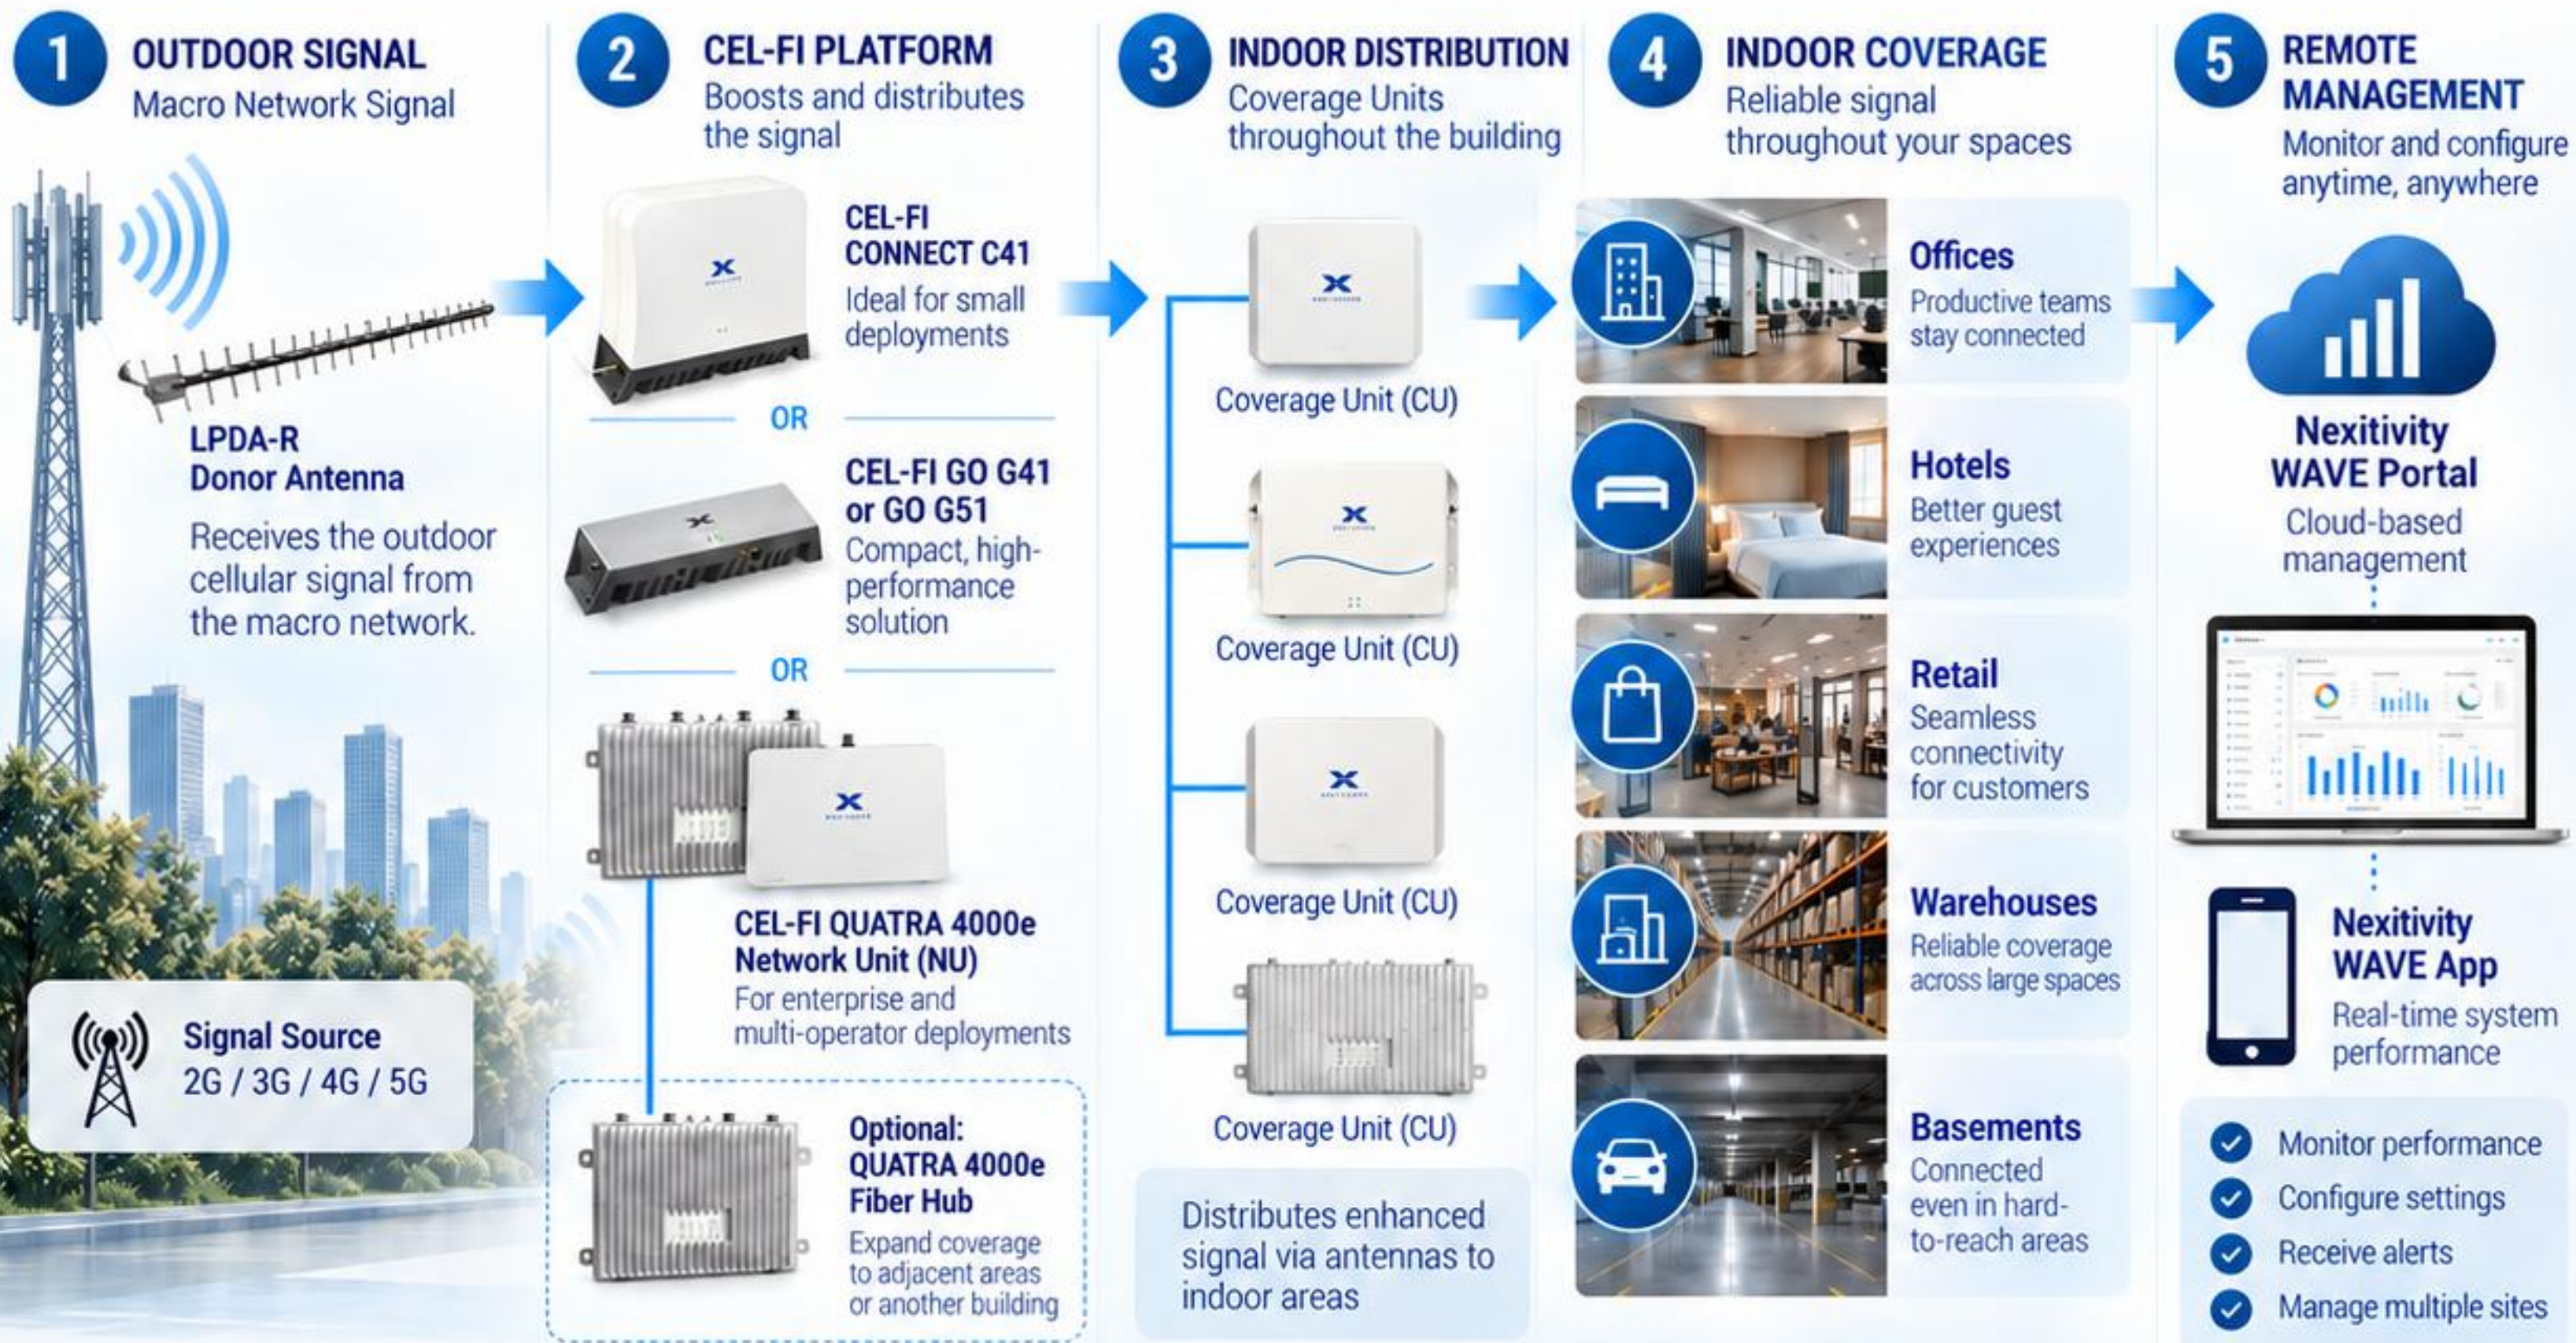

Rugged design with 10K ohm
resistor for public safety applications

Powered by smart, carrier-safe CEL-FI solutions.

HOW THE SOLUTION WORKS

From outdoor signal source to reliable indoor coverage.

A complete, carrier-grade CEL-FI solution delivers stronger signal, better voice quality and faster data — for a more connected tomorrow.

WHY CSC FOR CELLULAR COVERAGE?

One partner for survey, design, supply, installation and long-term support.

CSC delivers complete, end-to-end indoor mobile signal solutions using industry-leading Nextivity CEL-FI technology, helping you create better connectivity, brighter possibilities and a smarter tomorrow.

OUR SCOPE

From site assessment to long-term support, we handle it all.

-  RF survey and site assessment
-  Solution design and engineering
-  Product selection and configuration
-  Supply of CEL-FI equipment and antennas
-  Professional installation
-  Testing, commissioning and handover
-  Remote monitoring and management
-  After-sales support and maintenance

IDEAL FOR

Reliable coverage for every type of building.

-  Offices
-  Hotels
-  Malls
-  Warehouses
-  Villas
-  Residential buildings
-  Staff accommodations
-  Basements

WHAT THE CLIENT GETS

Real results. A better connected tomorrow.

-  Improved indoor coverage across 2G, 3G, 4G and 5G
-  Stronger voice and data performance
-  Scalable, future-ready solution
-  Carrier-safe, compliant technology
-  Better user experience for employees, guests and residents
