WHAT WE CLEAN & PROTECT

Specialized deep cleaning across critical technical environments.

**DATA CENTERS & SERVER ROOMS**
Racks, aisles, raised floors and room surfaces.

**MDF / IDF / TELECOM ROOMS**
Sensitive communication spaces and cabinets.

**COOLING UNITS & CRAC EXTERIORS**
External surface dust removal and anti-static wiping.

**FLOORS, UNDERFLOOR VOIDS & CABLE AREAS**
HEPA vacuuming and safe non-abrasive cleaning.

**CEILING VOIDS, WALLS, DOORS & GLASS**
Removal of dust from accessible surfaces.

**AISLE CONTAINMENT & FACILITY ROOM EQUIPMENT**
Visible dust, stickers and unwanted debris removal.

HOW CSC DELIVERS THE SERVICE

A safe, structured cleaning workflow
from preparation to reporting.

CLEAN
SECURE
RELIABLE
ALWAYS ON

Service Models

One-Time Deep Cleaning

Ideal for initial cleanups or after major work.

Scheduled Maintenance Program

Keep your environment consistently clean.

Quarterly / Annual Cleaning Plan

Long-term protection and peace of mind.

1 Site Survey & Coordination

Confirm areas, sensitivity and access needs.

2 Safety Preparation

Gate pass, barriers, signage and work-start approval.

3 Specialist Cleaning

HEPA vacuuming, anti-static wiping and low-lint cleaning methods.

4 Critical Area Treatment

Racks exteriors, cooling units, raised floor, ceiling and subfloor areas.

5 Inspection & Optional Particle Count

Final review and air-quality / particle-check option.

6 Report & Handover

Findings, recommendations and completion handover.

WHY CLIENTS USE IT

Protect Sensitive Equipment

Maintain Cleaner Airflow

Support Uptime

Improve Housekeeping Standards

A proven, structured process for cleaner, safer and more reliable critical environments.

BUSINESS BENEFITS & DELIVERABLES

Cleaner critical rooms. More reliable operations.

Reduced contamination

Helps control dust and fine particles.

Better equipment reliability

Cleaner surroundings support dependable performance.

Improved airflow

Cleaner surfaces and spaces support cooling efficiency.

Safer environment

Uses anti-static, low-lint and equipment-safe methods.

Higher uptime confidence

Cleaner critical spaces reduce operational risk.

Professional visibility

Reporting and recommendations for future maintenance.

CLEAN ENVIRONMENTS
STRONGER OPERATIONS

POST-CLEAN OUTPUTS

- Cleaning completion report
- Site findings
- Recommendations
- Optional particle-count summary
- Maintenance guidance

IDEAL FOR

- Data Centers
- Server Rooms
- Telecom Rooms
- Control Rooms
- MDF / IDF Rooms
- and other critical facility spaces.

NEED A CLEANER, SAFER TECHNICAL ENVIRONMENT?

CSC is ready to assess, clean and support your critical rooms.
