

MonetX Monitoring & Observability

Unified Monitoring. Complete Visibility. Faster Resolution.

CSC delivers MonetX, an enterprise-grade monitoring and observability platform that provides real-time visibility across networks, servers, applications, databases, cloud environments, CCTV systems, and IT/OT infrastructure — all through one unified dashboard.

Eliminate Blind Spots Across Your Digital Infrastructure

One platform. Every layer of your environment.

Separate monitoring tools create fragmented visibility, slower troubleshooting, and higher operating costs. CSC delivers MonetX to unify monitoring across your critical infrastructure.

Common Challenges

Fragmented monitoring tools

Slow incident resolution

Limited infrastructure visibility

Increasing operational complexity

How MonetX Solves It

Unified visibility

Agent-based & agentless collection

Real-time dashboards & alerts

Enterprise scalability

Multi-vendor integration

Proactive operations

How MonetX Works

From data collection to operational insight.

MonetX collects data from across your entire infrastructure, processes and correlates it in real time, and delivers actionable insights through unified dashboards, alerts and reports.

CSC designs, deploys and supports the complete monitoring architecture.

Core Monitoring Modules

Broad visibility across your digital infrastructure.

Network Performance Monitoring

Availability, interfaces, latency, packet loss.

Network Traffic Analysis

Flows, utilization, applications, behavior.

Server & Storage Monitoring

CPU, memory, disks, services, hardware health.

Application Performance Monitoring

Response time, transactions, errors.

Database Monitoring

Performance, sessions, queries, utilization.

Cloud Monitoring

Public, private and hybrid workloads.

CCTV & NVR Monitoring

Camera, recorder, storage, connectivity health.

OT & IoT Monitoring

Industrial and connected infrastructure visibility.

Configuration & IP Management

Backups, changes, compliance, IP tracking.

Platform Capabilities

Monitor more from one unified platform.

Auto-discovery

Custom dashboards

Intelligent alerts

SLA reporting

Role-based access

API & ITSM integration

Why CSC for MonetX

More than a platform — a complete service from CSC.

We combine industry expertise, proven methodology, and local support to help you get the most value from MonetX — from design and deployment to ongoing operations.

End-to-End Delivery by CSC

FROM VISION TO VALUE. TOGETHER.

Proof of Concept (POC) Journey

A FASTER PATH TO REAL RESULTS

Trusted Across Industries

REAL-WORLD IMPACT. LASTING PARTNERSHIPS.
